EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Katharina W. Schuster (Registration No. 50,000) on September 11, 2008.

The title of the invention is changed to: **"Method and system for identifying a visitor at a website server by requesting additional characteristic of a visitor computer from a visitor server."**

The claims of the invention are amended as follows:

22. (Currently Amended) A system for identifying a visitor at a network site comprising:

a plurality of requesting visitor computers;

a network site computer; and

a visitor server computer bidirectionally coupled to the plurality of requesting visitor computers over a first network and to the network site computer over a second network, wherein:

the visitor server computer is configured to not provide an address of any of the ~~individual~~ requesting visitor computers to the network site computer; and
the network site computer is configured to:

Art Unit: 2155

receive a network address of the visitor server computer and a characteristic of at least one of the plurality of requesting visitor computers from the visitor server computer over the second network,

determining if one or more additional characteristics of the at least one of the plurality of requesting visitor computers is needed from the visitor server computer,

request the visitor server computer to send the one or more additional characteristics of the at least one of the plurality of requesting visitor computers over the second network,

receive, from the visitor server computer, ~~a network address of the visitor server computer and~~ the one or more additional characteristics of the at least one of the plurality of requesting visitor computers, wherein the characteristic and the one or more additional characteristics of the at least one of the plurality of requesting visitor computers are obtained, by the visitor server computer, from a header portion of a request sent from the at least one of the plurality of requesting visitor computers to the visitor server computer over the first network, and

generate a visitor identifier from the network address of the visitor server computer, the characteristic and the one or more additional characteristics of the at least one of the plurality of requesting visitor computers.

24. (Currently Amended) The system of claim ~~[[18]]~~ 22, wherein the visitor server computer regulates communications across a firewall, wherein each of the plurality of requesting visitor computers operates behind the firewall, and wherein the network site computer and any of the plurality of requesting visitor computers communicate to each other via the visitor server computer.

REASONS FOR ALLOWANCE

Art Unit: 2155

2. The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 12, and 22, prior art of record, individually or in combination, fails to teach the features of claimed limitations thereof. Specially, inter alia, it fails to teach a method, a computer readable storage medium storing computer-executable code, and system for identifying a visitor at a web server, wherein a network address of a visitor server computer and a characteristic of at least one of a plurality of requesting visitor computers are received from the visitor server computer over a network, the web server determines if one or more additional characteristics of the at least one of the plurality of requesting visitor computers is needed from the visitor server computer, the web server requests the visitor server computer to send the one or more additional characteristics of the at least one of the plurality of requesting visitor computers over the network.

Claims 2-9, 13-19 and 23-25 further limit the claims 1, 12, and 22, therefore, they are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to OANH DUONG whose telephone number is (571)272-3983. The examiner can normally be reached on Monday- Friday, 9:30PM - 6:00PM.
